corporate australia's favourite creative experience

More and more companies are beating a path to a unique creative hub in Sydney whenever there's an opportunity to do something different or defy routine.

Here they surrender to **artescape**, one of the best tools for injecting imagination and inspiration into a team.

artescape is a two-hour session of creating spontaneous art with paints and an unusual array of applicators, anything but the conventional paint brush.

It's an extraordinary transformational experience that underscores the value of self-discovery, risk-taking and change for innovative companies.

artescape is for organisations who are Employers of Choice because they

- ⌚ promote a culture of challenge and innovation
- ⌚ recognise the importance of fun, play and imagination
- ⌚ develop and maintain an inventive, energetic and creative workforce
- ⌚ value personal development in employee training

artescape is the perfect

- ⌚ personal development tool
- ⌚ team building exercise
- ⌚ creative leadership driver
- ⌚ springboard for corporate culture change
- ⌚ training tool for outside-the-box thinking
- ⌚ conference break-out session

artescape is the outside-the-box event you're after for

- 🌀 product launches
- 🌀 media launches
- 🌀 client entertainment
- 🌀 staff parties
- 🌀 corporate gifts
